### i

This PDS summarises significant information about MLC Wholesale IncomeBuilder™ ('Trust'). It also contains a number of references to important information in the MLC Investment Trust Product Guide marked with an **i** symbol. The MLC Investment Trust Product Guide is a separate document which forms part of this PDS. These documents are available from [www.mlcinvestmenttrust.com.au/mlcit/product\\_disclosure\\_statements](http://www.mlcinvestmenttrust.com.au/mlcit/product_disclosure_statements) or you can request a copy free of charge by calling us or your investor directed portfolio service, master trust or wrap operator. The content in these documents may change from time to time.

This PDS and the MLC Investment Trust Product Guide contain important information you should consider before making an investment decision in relation to the Trust. The information provided in this PDS is general information only and does not take into account your personal financial situation or needs. We recommend you obtain financial advice for your own personal circumstances before making any investment decision.

---

## 1. About MLC Investments Limited

### Who you go through life with makes all the difference

MLC Investments Limited ('MLC') is part of a wider group of MLC companies. The MLC group of companies is the wealth management division of the National Australia Bank (NAB).

The MLC group has been looking after Australians' investment and insurance needs for over 120 years.

This experience has taught us the right solution for each investor is unique.

That's why we specialise in creating a diverse range of super, investment and insurance solutions.

We do this so you and your financial adviser can grow and protect your wealth the way you want to.

And, as your needs will change with time, we'll continually enhance our products and services so you can get the best out of your experience with us.

### Our portfolios make sophisticated investing straightforward

We're experts in putting together portfolios for people.

We have the experience and resources to find some of the best investment managers from around the world.

And, as world markets change, we manage and evolve our portfolios.

We actively research markets and seek new opportunities to increase returns or reduce risk.

And most importantly, we stay true to the objectives of our portfolios, so you can keep on track to meeting your goals.

### Keeping up to date

The latest information on our portfolios is available on our Fund Profile Tool at [www.mlcinvestmenttrust.com.au](http://www.mlcinvestmenttrust.com.au)

It's an easy to use, interactive tool that gives you greater insight into how your money is managed including current investment managers, where your money is invested and how your investments are performing.

### Trustee and responsible entity

This PDS is issued by MLC as Trustee and responsible entity for MLC Wholesale IncomeBuilder™ ('the Trust').

As the responsible entity, we're responsible for all aspects of operating the Trust including administration of the assets and overall investment policy.

## 2. How MLC Wholesale IncomeBuilder™ works

MLC Wholesale IncomeBuilder™ is one of MLC's asset class portfolios. These portfolios invest in one asset class and cater for people looking for a complete asset class solution, or a particular investment style.

The portfolios use the MLC approach to investing and benefit from the strength of our manager research capability, experience and knowledge of investing.

Each asset class portfolio brings together a specific combination of managers and is an easy way to gain access to sophisticated asset class solutions.

### About the Trust

The Trust operates like most other managed investment schemes. Your money is pooled together with other investors' money to buy investments managed on behalf of all investors.

When you invest in a managed investment scheme, such as the Trust, you gain exposure to investments that you may not ordinarily have access to, if you'd invested on your own.

When your money is paid into the Trust, units are issued and when money is paid out, units are cancelled.

The unit price will reflect, amongst other things, the performance of the underlying assets, which are in turn influenced by movements in investment markets.

Our unit pricing policy is available at [www.mlc.com.au](http://www.mlc.com.au)

The Trust is part of a larger suite of wholesale trusts collectively known as the MLC Investment Trust. The PDSs for other trusts in the suite are available at [www.mlcinvestmenttrust.com.au/mlcit/product\\_disclosure\\_statements](http://www.mlcinvestmenttrust.com.au/mlcit/product_disclosure_statements)

The Trust is governed by its constitution and is registered with the Australian Securities and Investments Commission ('ASIC'). ASIC takes no responsibility for this PDS or the operation of the Trust by MLC.

## Investing via a master trust or wrap account

The most common way to access the Trust is via an investor directed portfolio service, master trust or wrap arrangement (collectively referred to as an 'IDPS').

If you invest in the Trust through an IDPS, then you don't hold units in the Trust and you have none of the rights of a unit holder. Instead, the IDPS holds units on your behalf.

Investing through an IDPS may result in different conditions applying from those referred to in this PDS including:

- minimum balance requirements
- fees and other costs
- cooling-off rights
- how to transact on your investment
- timing of processing of transactions and payment of distributions and withdrawals, and
- provision of statements and other information.

You should contact your financial adviser or IDPS operator for further information.

We authorise the use of this PDS as disclosure to persons who wish to access the Trust through an IDPS.

This PDS must be read together with offer documents provided by the IDPS.

## Applications and withdrawals

If you invest in the Trust via an IDPS, you will need to contact your IDPS for details of how to invest or request a withdrawal from the Trust.

We have the discretion to accept or refuse any initial application or additional contribution without explanation.

Direct investors can request a partial or a full withdrawal to a nominated bank account at any time.

Withdrawal requests will be actioned by us promptly and we generally seek to make payments within 10 Business Days. Payment may be delayed, for example, if underlying assets need to be sold. In certain circumstances, such as when there are adverse market conditions, we may suspend withdrawals. We may also process requests in instalments over a period of time and may also suspend processing of requests we have already accepted. In certain circumstances we may refuse a withdrawal request.

In circumstances where withdrawals are delayed, suspended or being paid in instalments, the unit prices used for a withdrawal will be those applicable to the day the withdrawal is effected, rather than the time the withdrawal request is received.

## Income distributions

If you invest in the Trust via an IDPS, you should contact your IDPS to find out how any income distributions may be paid to you.

The income of the Trust will generally be calculated effective the last Sunday of September, December and March and 30 June each year. We generally aim to pay income distributions within 7 Business Days of the calculation date.

Distributions are generally calculated based on the Trust's net income at the end of the distribution period divided by the number of units on issue.

## Investing directly in the Trust

To invest directly in the Trust you must have received this PDS (electronically or otherwise) within Australia and be a 'wholesale client' as defined by the Corporations Act 2001 (Cth). You also need to maintain a minimum balance of \$500,000. We may accept lower amounts at our discretion. We may redeem your unit holding if your account balance falls below \$500,000.

In addition, to invest directly in the Trust, you must complete and sign the Trust's application forms and send them to MLC with your initial application money. You can make additional contributions by electronic funds transfer (EFT) or Austraclear.

If you invest directly into the Trust then you hold units in the Trust and have the rights of a unit holder.

New Zealand investors may also be eligible provided they satisfy the eligibility criteria described in the MLC Investment Trust Product Guide.

You should read the important information about **How the Trusts work** before making an investment decision. Go to the MLC Investment Trust Product Guide at [www.mlcinvestmenttrust.com.au/mlcit/product\\_disclosure\\_statements](http://www.mlcinvestmenttrust.com.au/mlcit/product_disclosure_statements)

The material relating to **How the Trusts work** may change between the time when you read this statement and the day you are invested in the Trust.

### 3. Benefits of investing in MLC Wholesale IncomeBuilder™

When you and your adviser choose an MLC portfolio, you're investing your money with Australia's largest and most experienced multi-manager.

#### Growing income stream solution

MLC Wholesale IncomeBuilder™ invests primarily in Australian companies that have the potential to provide future growth in dividends.

The Trust is expected to generate tax-effective returns by:

- investing in companies expected to have high franking levels, and
- carefully managing the realisation of capital gains.

The Trust is expected to provide returns consistent with investing in a broad range of Australian companies.

#### MLC's approach to investing

We design investment solutions to help investors achieve their goals while managing risk.

The four key aspects of our investment approach are:

1. Portfolio design
2. Managing the managers
3. Ongoing review
4. Portfolio implementation

The portfolio design aspect of our approach is not very relevant to the management of this Trust because it invests in only one asset class.

#### The MLC difference

For over 25 years, we've been designing multi-manager investments.

Our approach brings together exceptional investment management firms from all over the world; including managers who may be inaccessible to individual investors in Australia.

We combine these managers so you benefit from multiple investment insights and access to the best opportunities in all parts of the market.

Our global expertise, combined with our local knowledge of tax and investment conditions, means our portfolios are sensitive to the needs of Australian investors.

These are some of the reasons why MLC is the largest multi-manager in Australia.

### 4. Risks of managed investment schemes

Before you do any investing, there are some things you need to consider including the level of risk you are prepared to accept. Factors that will affect your decision include:

- your investment goals
- the savings you'll need to reach your goals
- how many years you have to invest
- the return you may expect from your investments, including investments outside the Trust
- how comfortable you are with investment risk.

#### Investment risk

Even the simplest of investments come with a level of risk. The value of an investment with a higher level of risk will tend to rise and fall more often and by greater amounts. In other words it is likely to be more volatile than those with less risk. And different investments have different levels of risk.

While the idea of investment risk can be confronting, it's a normal part of investing. Without it you may not get the returns you need to reach your financial goals. This is known as the risk/return trade-off.

Many factors influence an investment's value. These include:

- market sentiment
- growth and contraction in Australian and overseas economies
- legislative changes
- changes in interest rates
- defaults on loans
- company specific issues
- liquidity (the ability to buy or sell investments when you want to), and
- changes in the value of the Australian dollar.

When considering your investment it's important to understand that:

- its value, and the returns, will vary over time
- assets with higher long-term return potential usually have higher levels of short-term risk
- returns aren't guaranteed and you may lose some of your money
- previous returns shouldn't be used to predict future returns, and
- laws affecting your investment may change in future.

#### Investment techniques

Investment managers, including MLC, use different investment techniques which can change the value of an investment. Investment techniques used in the Trust include:

- derivatives.

#### Investments are not guaranteed

None of the NAB Group companies nor any other party, guarantees the capital value, payment of income or performance of the Trust. Your investment does not represent a deposit with or liability of any of the NAB Group companies.

**i** You should read the important information about **Risks of managed investment schemes** before making an investment decision. Go to the MLC Investment Trust Product Guide at [www.mlcinvestmenttrust.com.au/mlcit/product\\_disclosure\\_statements](http://www.mlcinvestmenttrust.com.au/mlcit/product_disclosure_statements)

The material relating to **Risks of managed investment schemes** may change between the time when you read this statement and the day you are invested in the Trust.

## 5. How we invest your money

Our multi-manager approach makes sophisticated investing easy to access, so you can get your investment plan into action right away.

**You should consider the likely return, risk and your investment timeframe when making your decision. The table below sets out these key aspects of the Trust for your consideration.**

MLC Wholesale IncomeBuilder™	
Investment objective:	Aims to provide returns from companies that are expected to deliver a growing dividend stream over time.
The Trust may be suited to you if:	<ul style="list-style-type: none"> <li>you want to invest in shares in Australian companies that are expected to deliver a growing dividend stream over time.</li> </ul>
Expected risk (volatility):	 <p>A horizontal scale with four segments: Low, Moderate, High, and Very high. A red circle marker is positioned in the 'High' segment.</p>
Minimum suggested time to invest:	7 years
How you can assess performance:	You can assess performance based on the annual growth in dividends received from the underlying companies.
Target allocation (at 31 December 2011)	100% Australian shares
Management cost:	0.97% pa
Transaction cost allowance (buy/sell):	0.15% / 0.10%

### Switching

Direct investors may be able to switch from the Trust to another portfolio in the MLC Investment Trust suite. If you invest via an IDPS, please contact your IDPS for details of how to switch.

### Changes to the Trust

We may make changes to the Trust at our discretion including, but not limited to, terminating the Trust. Some changes may be made without prior notice, including but not limited to, changes to the investment strategy, asset allocation, investment managers and other service providers to the Trust.

We will give direct investors 30 days advance written notice of any material changes. You can contact your IDPS to obtain copies of these notices. Changes that are not materially adverse will be made available under 'Latest News' at [www.mlcinvestmenttrust.com.au/mlcit/product\\_disclosure\\_statements](http://www.mlcinvestmenttrust.com.au/mlcit/product_disclosure_statements)

You can obtain a paper copy of any changes on request free of charge.

**i** You should read the important information about **How we invest your money**, including **MLC's approach to investing** and **ethical investing** before making an investment decision. Go to the MLC Investment Trust Product Guide at [www.mlcinvestmenttrust.com.au/mlcit/product\\_disclosure\\_statements](http://www.mlcinvestmenttrust.com.au/mlcit/product_disclosure_statements)

The material relating to **How we invest your money** may change between the time when you read this statement and the day you are invested in the Trust.

## 6. Fees and costs

### Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your fund balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

If you invest directly into the Trust you may be able to negotiate to pay lower contribution fees and management costs where applicable. You should ask MLC or your financial adviser about this.

### To find out more

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed investment fee calculator to help you check out different fee options.

### The fees and costs outlined in this PDS are for the Trust only.

You should read all of the information about fees and costs, as it is important to understand their impact on your investment in the Trust.

If you are investing in the Trust via an IDPS, you will need to consider the fees and other costs of the IDPS when calculating the total cost of your investment. If you consult a financial adviser you may also pay an additional fee that will be set out in the Statement of Advice between you and that financial adviser.

This section shows the fees and other costs that you may be charged in relation to the Trust. These fees and costs may be deducted from your money, from the returns on your investment or from the Trust's assets as a whole.

TYPE OF FEE OR COST	AMOUNT
<b>Fees when your money moves in or out of the Trust</b>	
<b>Establishment fee</b> The fee to open your investment.	Nil
<b>Contribution fee</b> The fee on each amount contributed to your investment.	Nil
<b>Withdrawal fee</b> The fee on each amount you take out of your investment.	Nil
<b>Termination fee</b> The fee to close your investment.	Nil
<b>Management costs<sup>1</sup></b>	
Management costs are the fees and costs for managing your investment? <sup>2</sup>	0.97% pa of the Trust's daily value (including GST net of Reduced Input Tax Credit).

<sup>1</sup> See 'Additional explanation of fees and costs' on page 7 for further details.

<sup>2</sup> If you invest directly in the Trust, you may be able to negotiate the management costs by contacting MLC. If you invest via an IDPS, the operator may have negotiated a lower fee which may be passed onto you. Please contact your IDPS for further details.

## Example of annual fees and costs

This table gives an example of how the fees and costs in the Trust can affect your investment over a 1 year period. You should use this table to compare this product with other investment products.

<b>EXAMPLE: MLC Wholesale IncomeBuilder™</b>		<b>Balance of \$500,000 with a contribution of \$5,000 during the year<sup>1</sup></b>
Contribution fees	0%	For every \$5,000 you put in, you will be charged \$0.
<b>Plus</b> Management costs	0.97%	<b>And</b> , for every \$500,000 you have in the Trust you will be charged \$4,850 each year.
<b>Equals</b> Cost of the Trust		If you had an investment of \$500,000 at the beginning of the year and you put in an additional \$5,000 during that year, then for that year you would be charged fees from: \$4,850 <b>What it costs you will depend on the fees you negotiate with MLC, your IDPS operator or your financial adviser as applicable.</b>

<sup>1</sup> This example assumes the \$5,000 contribution occurs at the end of the year.

## Additional explanation of fees and costs

### Management costs

The management costs are fees and costs for investing the Trust's assets. They include fees charged by the Trustee, fees paid to investment managers and other expenses incurred in operating the Trust, such as custody costs, registry costs, auditing fees and tax return fees. The management costs do not include transaction cost allowances or transaction costs.

### Transaction cost allowances

When calculating unit prices, MLC may make an allowance for the costs of buying and selling assets. These costs include brokerage and stamp duty.

When you transact on your account a small portion of your transaction may be allocated towards meeting these costs. These costs are an additional cost to you and will change without notice to you.

The transaction cost allowances as at the date of this PDS are shown on page 5.

### Changes to fees and costs

We may vary fees or introduce new fees up to the maximums described in the constitution, without your consent.

Under the constitution the maximum fee payable to the Trustee is:

- 2% pa of the Trust's daily value, plus
- 6% of every contribution paid into the Trust.

We are entitled to recover expenses directly from the Trust. Currently we pay them out of management costs. If this changes we will notify you.

If you invest directly in the Trust we will give you 30 days notice of increases in fees or costs. No notice will be given in respect of changes to transaction cost allowances.

You should read the important information about **Fees and costs** before making an investment decision. Go to the MLC Investment Trust Product Guide at [www.mlcinvestmenttrust.com.au/mlcit/product\\_disclosure\\_statements](http://www.mlcinvestmenttrust.com.au/mlcit/product_disclosure_statements)

The material relating to **Fees and costs** may change between the time when you read this statement and the day you are invested in the Trust.

## 7. How managed investment schemes are taxed

Investing in a managed investment scheme is likely to have tax consequences. Because this PDS and the MLC Investment Trust Product Guide are not tax guides and tax laws are complex and change from time to time, we strongly recommend that you obtain professional tax advice in relation to your own personal circumstances. This applies whether you are an Australian resident or a non-resident for tax purposes.

By distributing the net taxable income of the Trust to investors each year, the Trust itself should not be liable for tax on its net earnings. Managed investment schemes do not pay tax on behalf of members. Rather investors should include their proportion of the Trust net earnings as income in their tax returns. Any net losses are retained by the Trust and used to offset future matching gains.

The unit price of units issued before a distribution will include income accumulated in the Trust since the last distribution payment. The income that has been accumulating will be distributed and you may potentially have taxation liabilities on that income.

Depending on an investor's circumstances, a revenue or capital gain or loss may arise when units in the Trust are sold, switched or redeemed.

## 8. How to apply

### Opening an MLC account

To invest directly, you must complete and sign the application forms for the Trust and send them to MLC with your application money and identification documentation as applicable. Contact MLC to obtain the application forms.

### Investing via an IDPS

To invest in the Trust via an IDPS, you will need to contact your IDPS and complete the relevant IDPS application form and any other documentation required by the IDPS. You will also need to contact your IDPS in relation to making any additional contributions to your investment.

### No cooling off rights

The right to 'cool off' does not apply to direct investments in this Trust.

### Privacy

If you invest directly in the Trust, to let you know about the products we have on offer, we may need to use your personal information for marketing activities. If you don't consent to the use of your personal information for marketing activities, simply let us know. If you don't contact us, your consent will be assumed. You can change your consent at any time. You can access our Privacy Policy at [www.mlc.com.au](http://www.mlc.com.au) or contact us for a paper copy. The policy provides information about how we handle information we collect about you, including how you may access information we collect about you, the purpose for information being collected and to whom we will disclose the information.

### Resolving complaints

If you invest directly in the Trust and have a complaint about any aspect of your investment, you should call MLC on 02 9936 4577. We can usually resolve complaints over the phone. If we can't resolve your complaint over the phone, or you're not satisfied with the outcome, then you will need to write to us (address details are at the end of this PDS). We will work to resolve your complaint as soon as possible.

If you are invested in the Trust via an IDPS you should contact your IDPS about any complaint you have.

## 9. Other information

**i** You should read the important information about **Keeping you informed** before making an investment decision. Go to the MLC Investment Trust Product Guide at [www.mlcinvestmenttrust.com.au/mlcit/product\\_disclosure\\_statements](http://www.mlcinvestmenttrust.com.au/mlcit/product_disclosure_statements)

The material relating to **Keeping you informed** may change between the time when you read this statement and the day you are invested in the Trust.

### Contact details

If you invest via an IDPS you should contact your IDPS for all enquiries.

If you invest directly in the Trust, the Trust's contact details are:
