Additional investment managers may also be appointed to manage cash investments.

In their capacity as investment managers of the Portfolio the organisations named above provide financial services only to MLC and do not provide such financial services to you. In particular, the organisations do not, in that capacity, provide any advice to you concerning any financial product referred to in this document. However, some of the organisations or their associated companies may in other capacities provide advice and other financial services to you.

For Global Private Markets

Consistent with other asset classes, MLC uses a multi-manager approach to manage global private markets assets in the MLC Horizon Series portfolios and MLC Long-Term Absolute Return Portfolio. The number of investment managers and/or investments in this asset class will be relatively large and vary over time, as the private markets portfolio evolves and matures. MLC Private Equity managed total assets of \$5 billion, across the company, as at 30 June 2011.
