

Antares Elite Opportunities Fund

TARGET MARKET DETERMINATION

This Target Market Determination (TMD) describes the investors that make up the target market for this fund and sets out some other matters relevant to the fund's distribution and review. This document is available to the public free of charge. It doesn't form part of the Product Disclosure Statement (PDS) for the fund and it doesn't list all the fund features or terms. The information in this document doesn't take into account any person's individual investment objectives, financial situation or needs. Investors should read the PDS before making any decision regarding the fund.

Section 1 – Target Market and Product Features

An investor who satisfies the following is in the target market for the Fund:

- wants to invest in an actively managed, concentrated portfolio of Australian listed equities managed by a specialist Australian equities manager;
- wants to invest in a specialist investment manager's best investment ideas, which are not constrained by the market's industry or company weights;
- wants a specialist manager that exploits mispricing opportunities by conducting detailed research on individual companies and taking a longer-term view of their value;
- is seeking long-term capital growth;
- can tolerate fluctuations of income and the risk of capital loss; and
- wants to invest either:
 - indirectly, through a 'platform product' (such as an investor-directed portfolio service or a 'wrap'-style superannuation product); or
 - directly, by application to us (provided the amount they want to invest is at least \$20,000 and is an Australian resident).

The Product Features of the Fund are set out in the table below:

Please note, if an investor intends to hold this Fund as part of a diversified portfolio, the Fund should be assessed against the investor's requirements for the relevant portion of the portfolio, rather than the investor's requirements for their portfolio as a whole.

For example, an investor may seek to construct an overall conservative portfolio which includes an allocation to a higher risk investment. In this case, it may be likely that an investment with a higher risk/return profile is consistent with the investor's requirements, even though the risk profile of the investor overall is lower than the investment selected. In making this assessment, please consider all Product Features.

¹ Antares Capital Partners Ltd (ACP) was the responsible entity for the Fund prior to the Issuer (the Issuer replaced ACP as responsible entity on 3 October 2023). ACP issued a target market determination for the Fund in the form of version 1 and version 2.
