 - enhanced long positions; and
 - active and opportunistic trading such as pairs trading;
- wants access to specialist investment expertise and active security selection capabilities;
- wants to add value from both rises and falls in individual security prices by taking long and short positions;
- is an Australian resident; and
- wants to invest either:
 - indirectly, through a 'platform product' (such as an investor-directed portfolio service or a 'wrap'-style superannuation product); or
 - directly, by application to us (provided the amount they want to invest is at least \$20,000).

Customer need/objective/financial situation	Details
Investment objective	
Capital growth	The Fund is designed for investors seeking capital growth by investing in a Fund which aims to outperform the S&P/ASX 200 Total Return Index (after fees) over rolling five-year periods. To achieve this, the Fund invests in a portfolio of Australian equity positions managed using fundamental research and active security selection as part of a range of investment strategies including long/short positions, active trading and the ability to use exchange traded derivatives.
