

# APPROVED PRODUCT LIST

10 May 2019

**The Approved Product List (APL) is a list of products that have undergone due diligence by research professionals.**

The due diligence approach aims to present a quality and contemporary list of products that:

- provide a good balance of features that are important to most clients, and
- are comparable in the marketplace relative to other products.

MLC Advice advisers can recommend any products from the APL knowing that they stand up well in comparison to other products in the market, having successfully passed through a stringent review process and ongoing monitoring framework. Before making any recommendations, MLC Advice advisers will consider each client's individual objectives, financial situation and needs to enable them to recommend products that they believe are in their clients' best interests..

All MLC Advice advisers should refer to the approved product list available on My licensee which includes details around accreditation requirements, licensee limits and other relevant information.

Products marked with a '+' represents products owned or managed by NAB Group.
