Important information about your insurance

Key considerations

- Insurance premiums will reduce your super balance. This is important to consider particularly if your account is not receiving regular contributions.
- If your account is not receiving contributions because perhaps you're taking a break from work, in-between jobs, working overseas or changing jobs, this may put you at risk of losing your insurance.
- To maintain your insurance cover, you'll need to have sufficient funds in your account to pay for your insurance premiums.
- The insurance cover that's right for you depends on your personal, family and financial circumstances, as well as your income and lifestyle. You can regularly review your insurance cover so that it continually meets your needs, especially as your circumstances may change.
- Insurance through your super can be a great way to protect you and your family in a tax effective manner. It's hassle free as your premiums are deducted from your super account.
