## Important information about insurance

### Key considerations

- To maintain your insurance cover, you'll need to have sufficient funds in your account to pay for your insurance premiums.
- Insurance premiums will reduce your super balance. This is important to consider, particularly if your account isn't receiving regular contributions.
- The insurance cover that's right for you depends on your personal, family and financial circumstances. You can regularly review your insurance so that it continues to meet your needs, especially as your circumstances change.
- If you have Income Protection elsewhere, it may impact your ability to claim benefits under this Income Protection policy.
