AMP Capital Corporate Bond Fund update (AMP1285AU, AMP0557AU)

We are writing to let you know the investment objective and benchmark for the AMP Capital Corporate Bond Fund (the Fund) will be changing to better reflect its primary focus of delivering monthly income to investors.

Background for the change

The Fund was initially launched to wholesale investors in 1997. Since we began to offer it to retail investors in 2009, the Fund has increasingly evolved its focus on meeting the income needs of these investors. As part of this evolution, the distribution frequency was increased from quarterly to monthly and the benchmark was changed to the UBS Credit Index to better reflect the Fund's assets. We regularly review the Fund to ensure it retains its relevance for our retail clients, and the decision to update the benchmark and investment objective is a result of this process.

What is changing?

The changes are outlined in the table below and will take effect from **29 February 2016**.

	New	Previous
Investment objective	<p>Primary: The AMP Capital Corporate Bond Fund aims to deliver regular monthly income, whilst seeking to provide capital stability to investors over the medium term.</p> <p>Secondary: To provide total returns (primarily income with some capital growth) above the Fund's benchmark over a rolling 3-year basis.</p>	To provide total returns (capital growth and income) above the Fund's performance benchmark (Bloomberg AusBond Credit 0 + Yr Index) on a rolling 3-year basis.
Benchmark	Bloomberg AusBond Bank Bill Index	Bloomberg AusBond Credit 0+Yr Index
