Notes:

- ¹ Our Fund Commentary, available in the Fund Profile Tool, compares the fund's return to its benchmark's return. The benchmark's return is based on the returns of the market indices shown above, weighted according to the strategic asset allocation, also shown above. The fund's benchmark is called a 'composite' benchmark because it comprises multiple indices.
- ² The above table reflects the fund's benchmark, which is a combination of market indices, weighted according to the strategic asset allocation. The strategic asset allocation, ranges and market indices for our diversified funds change infrequently. This table is only updated when a change to strategic asset allocation, ranges or market indices is made.
