ARSN: 098 445 464 APIR Code: NML0348AU

13 December 2021

Product Disclosure Statement changes

We are updating the Product Disclosure Statement ('PDS') for investors in the Wholesale Global Equity – Value Fund ('Fund'). The new PDS will be available on our website at www.ampcapital.com/pds/auwgv/m from **13 December 2021**.

The key changes include, but are not limited to:

- Responsible Entity
- Investment Manager
- Updated summary of risk level
- Updated indirect costs

Please note these changes do not impact the way the Fund operate nor the Fund's strategy, whilst the Fund's key investment team members and other features such as fees and applicable costs will also remain the same.

Full details of the changes can be found in the PDS. As always, we recommend you read this document to understand the main benefits and risks of investing, along with other features of the Fund. A summary of the key change to the Fund's features is also set out below for your reference.

The responsible entity has changed (effective on 13 December 2021)

The responsible entity (RE) for the Fund has changed from National Mutual Funds Management Ltd (NMFm) to ipac Asset Management Limited (IAM), another member of the AMP Group.

What's the role of a responsible entity?

As trustee, the responsible entity makes sure the Fund is managed in the best interests of investors and in compliance with the law.

For your reference, details for NMFm and IAM are shown below.

| Responsible Entity (RE) | ABN | AFSL |
|---|----------------|--------|
| Previous RE | | |
| National Mutual Funds Management Ltd (NMFm) | 32 006 787 720 | 234652 |
| New RE | | |
| ipac Asset Management Limited (IAM) | 22 003 257 225 | 234655 |

Who is ipac Asset Management and what are the benefits of the change of RE?

IAM is a member of the AMP Group and already acts as a responsible entity for similar funds, with a sole focus on funds which use multi-manager as well as multi-asset investment approaches. Importantly, IAM is dedicated to acting as an RE and does not carry on other substantive businesses or activities.

We believe that the appointment of IAM as RE is in the best interests of unitholders in the Fund and is expected to provide a number of benefits, including:

- accessing IAM’s specialist RE expertise in the operation of multi-manager and multi-asset funds, which it has gained from its significant experience in operating these fund types for over 30 years;
- providing for further focus and efficiencies in operational and governance functions for the Investment Options, as well as alignment with AMP’s organisational structure into the future; and
- ensuring seamless transition of the operations of the Fund, given IAM is a related entity within the AMP Group and key personnel, systems and resources that manage and support the Fund will remain the same.

The investment manager has changed (effective on 13 December 2021)

AMP Capital Investors Limited (AMPCI) was the previous investment manager for the Fund, who in turn appointed AllianceBernstein Investment Management Australia Limited (AB) as the underlying external fund manager. When IAM became the responsible entity, it will appoint National Mutual Funds Management Ltd (NMFM) as the replacement investment manager for the Fund in place of AMPCI. AB will remain as the underlying manager of the Fund. **NMFM is also a member of the AMP Group and will retain AMPCI’s Multi-Asset Group’s investment capability**, which has significant experience as an investment manager for multi-manager as well as multi-asset investment approaches.

For your reference, details for AMPCI and NMFM are shown below.

| Investment manager | ABN | AFSL |
|---|----------------|--------|
| Previous investment manager | | |
| AMP Capital Investors Limited (AMPCI) | 59 001 777 591 | 232497 |
| New investment manager | | |
| National Mutual Funds Management Ltd (NMFM) | 32 006 787 720 | 234652 |

As the investment manager, NMFM will be responsible for the management and investment of the Fund’s assets. Part of this role is to conduct research into and appoint specialist investment managers who undertake investment activities in the underlying assets of the Fund. These managers range from large global firms to boutique managers. NMFM will blend the mix of these managers to construct a portfolio with the aim to deliver strong investment outcomes for the Fund’s investors.

Who is National Mutual Funds Management Ltd?

NMFM brings a focus to multi-asset investing. Importantly, NMFM will retain AMPCI’s Multi-Asset Group’s investment capability.

The Multi-Asset Group has provided innovative multi-asset investment solutions for investors for more than 40 years and comprises a team of over 20 investment professionals with specialist expertise in economic analysis, asset allocation, portfolio and risk management and manager selection. We believe that the team’s broad range of skills and experience provides an edge in constructing portfolios across various portfolio types and objectives that suit a wide range of investors.

As a member of the AMP Group, NMFM has access to the resources of the AMP Group which are comparable to those available to AMPCI.

Importantly, while the responsible entity and investment manager entities are changing, the investment strategy for the Fund will remain the same, along with key personnel, systems and resources that manage and support the Fund. Furthermore, we believe that as a related entity within the AMP Group, NMFM’s appointment as investment manager ensures a seamless transition of the operation of the Fund.

Why have the responsible entity and the investment manager changed and does this impact the day-to-day management of my Fund?

As part of AMP Limited's (AMP) business strategy to simplify and streamline its organisation, AMP has been undertaking a review of its funds management functions and structure and identified a number of benefits to the consolidation of its responsible entity and investment manager arrangements.

The transition of the Multi-Asset Group business to AMP's Australian wealth management business will establish an end-to-end superannuation and investment business, better able to deliver a strong investment proposition, whilst serving our clients.

We believe that IAM's appointment as RE of the Fund, and the related change in investment manager, will not lead to any material change in the way that the Fund, and its investments, are managed.

Updated Summary of risk level

Following a recent review, the Risk band and Risk label will be updated:

| Fund marketing name | NEW | | PREVIOUS | |
|--|-----------|------------------|-----------|------------|
| | Risk band | Risk label | Risk band | Risk label |
| Wholesale Global Equity - Value Fund | 7 | Very high | 6 | High |

Information about new Risk band and Risk label

This means we estimate the number of negative annual returns over any 20-year period would be in the range of 6 or greater.

Updated estimates of indirect costs

While there have been no changes to the fee structure that applies, our estimates of certain fees and costs for the Fund have been updated following our latest review, to ensure they accurately reflect the costs of managing the Fund.

Full details can be found in the PDS. As always, we recommend you read this document to understand the main benefits and risks of investing, along with other features of the Fund.
