

Fund Transaction Cost Updates

21 April 2020

CHANGES TO BUY / SELL SPREADS

We are writing to advise you of changes to the Fund(s) listed in the table on the following page, that have been implemented with effect from 21 April 2020.

Before making any investment decisions, we recommend you read the Product Disclosure Statement (PDS) and its incorporated information, or other offering document, which are available on the website (see the table for further details), about the benefits and risks of investing, and the other features of the Fund(s).

What are buy and sell spreads

Buy and sell spreads are a cost incurred by investors who enter or exit a managed fund. It ensures that all unitholders are treated fairly and transaction costs are paid by those investors who transact rather than by all the other unitholders in the fund. The buy and sell spread is retained by the fund to cover the transaction costs associated with the fund buying or selling assets. Buy and sell spreads are not a fee paid to the investment manager.

The buy spread is the difference between a fund's net asset value (NAV) unit price and entry price. The sell spread is the difference between the fund's NAV unit price and exit price.

What are the changes and what has caused the changes?

Due to the recent, unusually high volatility in markets, there have been large movements in transaction costs associated with the Fund(s). As a result, in order to protect the value of investors' capital in the Fund(s) who are not transacting, we have adjusted the buy/sell spread for the Fund(s), as detailed in the table on the following page.

The Responsible Entity and Trustee details for these Fund(s) are noted below.

- AMP Capital Funds Management Limited (ABN 15 159 557 721, AFSL 426455) (AMPCFM)
- AMP Capital Investors Limited (ABN 59 001 777 591, AFSL 232947) (AMPCI)

Please note, as the current market situation is evolving rapidly, further changes may be required. We are monitoring this and will update you as required. As detailed in the PDS or other offering document, current buy and sell spreads can be obtained online at www.ampcapital.com/spreads or by contacting us.

Investor impact

It is a legislative requirement to report investors' account balances based on the exit price. Where sell spreads have increased, investors will see a downward adjustment in the reporting value of their account. Alternatively, where sell spreads have decreased, investors will see an upward adjustment in the reporting value of their account.
