Change to Investment Strategy

We are writing to inform you of a change to the Fund's investment strategy due to the phasing out of the Euro Interbank Offer Rate (EURIBOR). Effective 1 October, the investment strategy will change as follows:

Current Investment Strategy	Investment Strategy from 1 October 2021
<p>The Fund will invest in the Underlying Fund and may hold up to 5% of its assets in cash.</p> <p>The Underlying Fund aims to deliver a return of 6M EURIBOR plus 5% per annum, before charges, over rolling three-year periods.</p>	<p>The Fund will invest in the Underlying Fund and may hold up to 5% of its assets in cash.</p> <p>The Underlying Fund aims to deliver a return of Euro short-term rate (€STR) plus 5% per annum, before charges, over rolling three-year periods.</p>

Change to Current Risk Level (Standard Risk Measure – 2021/2022)

We are also writing to inform you of a change to the Fund's Risk Level as follows:

Current Risk Level	Risk Level
High	Very High

The Risk Level represents the Standard Risk Measure (SRM) for the Fund. The SRM is generally reviewed each year based on the latest estimates of long-term volatility and correlation data. Any significant changes to market conditions or refinements to the SRM methodology may alter the SRM from time to time. Please visit our website at www.aberdeenstandard.com.au for more information on SRMs.

Do I need to take any action?

No. This letter is for information only. These changes will be reflected in the Fund's new Product Disclosure Statement (PDS) to be issued on or around 1 October 2021. Once issued, the PDS can be viewed on our website, www.aberdeenstandard.com.au, or you can obtain a copy by contacting our Client Service Team.

If you have any questions regarding the above, please contact Aberdeen Standard Investments Client Service team on 1800 636 888 or +61 2 9950 2853 (if calling from outside Australia), or via email to client.service.aust@aberdeenstandard.com
