Update to buy and sell spreads

The buy/sell spread is a type of transaction cost incurred when buying and selling the underlying assets of the portfolio. The purpose of the buy/sell spread is to ensure that only those investors transacting in a Fund's units at a particular time bear the costs of buying and selling the assets as a consequence of their transaction. The spreads will reflect costs such as brokerage, stamp duty, underlying security spreads and other government taxes or charges.

Buy/sell spreads applied to Funds will be adjusted up or down over time in line with sustained changes in transaction costs experienced by a Fund.

The recent sustained volatility in markets has seen large movements in transaction costs experienced by Funds. The Responsible Entity has reviewed current transaction costs and determined to adjust the buy/sell spreads for the Fund(s) listed in the table below. These changes are effective 31 March 2020.

We will continue to monitor transaction costs in the market on a daily basis and adjust the buy/sell spreads accordingly. This means the buy/sell spread on any Fund may vary day to day and could fluctuate significantly.

Buy and sell spreads will be determined and applied in the same manner as disclosed in each Fund's Product Disclosure Statement, which can be found on our website, www.fidante.com.au.

Effective 31 March 2020, buy/sell spreads will be as set out in the table below:

Fund	ARSN	Current	Effective 31 March 2020
		Buy/Sell Spread	Buy/Sell Spread
Kapstream Absolute Return Income Fund	124 152 790	+0.00%/-1.75%	+0.00%/-1.00%
Kapstream Absolute Return Income Plus Fund	627 095 676	+0.10%/-2.50%	No change
