

# Update on buy/sell spreads for Macquarie managed funds

Due to heightened volatility and the evolving nature of liquidity conditions in the current markets, we are reviewing the buy/sell spreads for our funds on a regular basis to ensure that they reflect our estimates of the costs associated with acquiring and/or disposing of the underlying investments of our funds. As such, we may need to make adjustments to the buy/sell spreads from time to time.

## How will this impact unitholders?

A buy/sell spread seeks to ensure that the estimated transaction costs of the acquisition or redemption are:

- borne by the investor who is applying for or redeeming the units, not by other investors in a fund
- retained by a fund to cover the transaction costs as they are incurred, and
- not paid to the responsible entity or investment manager.

In certain circumstances such as the market conditions we are experiencing at present, the buy/sell spread may increase significantly. The increase in the estimated transaction costs will only impact those investors who are transacting on the fund and not all unitholders.

## Where can I find the current buy/sell spreads?

You can find the buy/sell spreads for the latest pricing date for a Macquarie managed fund at [macquarie.com.au/daily\\_spreads](http://macquarie.com.au/daily_spreads). Please note that these spreads may change by the time a transaction is processed.
