

MLC Wholesale funds

End of year distribution commentary, 2023 financial year
4 July 2023

Background

On Friday, 30 June 2023 the last cash distribution for the 2023 financial year (FY2023) was made to investors in the MLC Wholesale funds, including those offered in:

- MLC MasterKey Investment Service Fundamentals
- MLC Wrap
- Navigator platforms
- MLC MasterKey Investment Service¹, and
- external platforms.

Investors can expect the unit price for the funds in Table 1 (Funds) to fall by the amount of the distribution.

If you invest through a platform, your distribution will be allocated to you by the platform. Investors who have their distributions paid into their bank account, rather than reinvested into their fund, can expect the income in their account within two weeks after the distribution.

The estimated tax components will be available at mlcam.com.au in late July 2023. To assist investors in the preparation of their tax return, the final taxation components will also be reflected in financial year 2022/2023 tax statements for the Funds. We estimate the tax statements will be sent in August to those investing in MLC Wholesale directly. Investors in MLC Wholesale through a platform will receive tax information from their platform.

Commentary for full year cash distributions for FY2023

Commentary on the final cents per unit (CPU), compared to FY2022 distributions, is provided in Table 1.

Table 1 – Commentary on cash distributions for FY2023

MLC Wholesale fund	CPU for	Full year CPU		Full year cash distribution for
(APIR code)	Jun 23 qtr	2022/23	2021/22	FY2023 commentary
MLC Wholesale Horizon 1 Bond Portfolio (MLC0669AU)	0.47	0.70	0.87	<p>The distribution is slightly lower than FY2022 due to <u>currency losses from a weaker Australian dollar relative to the US dollar and euro</u>.</p> <p>The Fund has <u>carried forward capital losses</u> at the end of FY2023, resulting in no realised capital gains to distribute.</p> <p>Please click on the links for more information.</p>

¹ The MLC Inflation Plus – Assertive Portfolio, MLC Diversified Debt Fund and MLC Global Property Fund in MLC MasterKey Investment Service are accessed through the MLC Wholesale funds, so they have a June year end and are covered by this commentary.

Key factors affecting distributions in FY2023

MLC Inflation Plus, MLC Horizon and MLC Index Plus portfolios are a range of multi-asset class funds tailored to meet the needs of investors with different return expectations, time frames and tolerances for volatility. The income distributions for these funds are largely based on the income from the underlying asset classes. The allocations to the asset classes are different for each of the portfolios.

MLC's share funds (except for MLC IncomeBuilder), and the MLC multi-asset portfolios with high allocations to shares, are designed to provide capital growth over the long term. Although many of these growth-focussed funds make frequent distributions, their main objective is to increase the value of their assets for investors, rather than to deliver a regular income stream. As a result their income tends to fluctuate from year to year.

Here are the key factors affecting distributions in FY2023.

Currency losses from a weaker Australian dollar relative to the US dollar and euro

MLC Horizon portfolios' investments include overseas shares and fixed income. We hedge part of these holdings to reduce the funds' exposure to movements in the Australian dollar (AUD).

Over FY2023, the AUD weakened when compared to the US dollar (USD) and the euro. The AUD decreased from around USD 0.68 at the end of June 2022 to around USD 0.66 at the end of June 2023. The AUD decreased from around euro 0.66 at the end of June 2022 to around euro 0.61 at the end of June 2023.

As a result, funds with AUD hedging generated losses, which decreased the distributions. Currency hedging losses accumulate during the year and are all paid in the June distribution. Our [Income Distributions FAQs](#), Question 8, has more information on hedging.

Capital gains income

When we sell securities in our funds (such as shares and property securities) we 'realise' a capital gain or loss. The capital gain (or loss) is the difference between the price we sell the security for and the cost of the security, and any costs associated with buying or selling the security. A reduction in trading activity in FY2023 contributed to less capital gains income being generated when compared to FY2022.

Carried forward capital losses

A fund's capital losses significantly reduce the level of realised capital gains distributed. Weak and volatile markets from events such as the GFC and COVID-19 results in most funds suffering large capital losses when they sell investments. Capital losses must remain in the fund and are carried forward until they can be offset against future capital gains.

The funds with carried forward capital losses at the end of FY2023 are:

- MLC Wholesale Horizon 1 Bond Portfolio
- MLC Wholesale Horizon 2 Income Portfolio
- MLC Wholesale Horizon 3 Conservative Growth Portfolio
- MLC Wholesale Inflation Plus – Conservative Portfolio
- MLC Wholesale Inflation Plus – Moderate Portfolio
- MLC Wholesale Property Securities Fund

MLC Wholesale funds

End of year distribution commentary, 2023 financial year
4 July 2023

Other income such as dividends and interest income continue to be distributed by funds with carried forward capital losses because only capital gains are offset against capital losses.

Importantly, while carried forward losses dampen income distributions, they don't affect a fund's total returns.

Carried forward revenue losses

Revenue losses occur when a fund's expenses are higher than its income. Revenue income includes dividends and interest and is also impacted by foreign currency gains (and losses) and returns from certain assets. However, revenue income doesn't include capital gains. Revenue losses reduce the level of distributions and, subject to majority continuity of ownership testing, are able to be carried forward until they can be offset against future revenue income.

The funds with carried forward revenue losses at the end of FY2023 are:

- MLC Wholesale Global Property Fund Class A
- MLC Wholesale Global Property Fund Class B
- MLC Wholesale Diversified Debt Fund Class B

Next steps

The estimated tax components will be available late July 2023. This information will be available on mlcam.com.au.

The final taxation components will also be reflected in financial year 2022/23 tax statements for the Funds, which are estimated to be available in August for those investing in MLC Wholesale directly. Investors in MLC Wholesale through a platform will receive tax information from their platform.

If you have questions, please speak to your financial or tax adviser.

We also have frequently asked questions on income distributions available on mlc.com.au.

More information on the performance of each fund is available on the MLC Investment Trust Fund Profile Tool on mlcam.com.au.

MLC Wholesale Inflation Plus – Conservative Portfolio (MLC0921AU)	2.24 (2.2%)	4.29 (4.1%)	3.50 (3.4%)	4.51 (4.2%)	3.92 (3.7%)	2.08 (2.0%)	2.21 (2.1%)	2.99 (2.8%)	5.06 (5.0%)

² The distribution yield for a fund is the annual CPU divided by the unit price released the day after the final distribution for the previous financial year. A fund's total return includes unit price movements (ie capital growth) and its income distribution. Total returns are available at mlcam.com.au
