About Buy/Sell spreads

Each quarter we review the costs associated with buying or selling assets in a Fund (Buy/Sell spreads) to ensure that they remain accurate and align to the volume of activity generated by the Fund, including associated transaction costs.

The purpose of the Buy/Sell spread is to ensure that existing unitholders do not pay costs caused by another investor buying or selling units in the Fund. This spread stays in the Fund to cover transaction costs and is not a fee paid to the manager.

As always, any decision made with respect to Buy/Sell spreads is made in the best interest of existing clients.
