

23 March 2020

Important notice to unitholders

Important information regarding Vanguard Wholesale and Retail funds

This is to advise that there will be changes in the buy and or sell spreads in a number of Vanguard's managed funds, effective immediately.

At Vanguard, we know that costs matter. We regularly review the cost of investing as part of our commitment to continually bring you high-value, low-cost investment products.

When you apply for or redeem units in Vanguard managed funds there are transaction costs known as buy/sell spreads. The spreads reflect the costs of trading today and are the result of transaction expenses associated with the purchasing and selling of assets within the funds. They ensure the fair sharing of costs between those trading and existing investors. It is important to note that spreads are retained in the fund and are not a fee paid to Vanguard.

Fixed income markets are currently experiencing significant volatility and as a result, the cost of transacting has risen significantly. In addition, funds employing currency hedging have also been impacted with an increase in foreign exchange transaction costs. The outcome of our latest targeted review has resulted in an adjustment of buy/sell spreads for a number of our funds due to the market activity described above.

What are the changes and when will they happen?

The new buy/sell spreads will apply from closing unit prices on **23 March 2020 inclusive**.
